

Arrowquip Head Scoop

£POA

The 3rd Generation Q-Catch® Cattle Head Scoop takes cattle control to a new level, with enhanced control and durability for optimal performance. Featuring an upgraded design with thicker and heavier components, the 3rd Gen Head Scoop ensures you can perform treatments on your cattle safely and easily, no matter their size or temperament. The Head Scoop is made up of two pieces - a bottom bar with scoop for cattle to rest their chin and top bar to secure the head and prevent thrashing. The two pieces move in a synchronized, scissor-style motion to clamp around the animal's head securely and provide the handler with up-close access to the
