

Ritchie Sheep Combi Clamp

£POA

Ritchie Sheep Combi Clamp. A revolutionary design in sheep handling. With no need to catch or handle sheep, the RITCHIE Combi Clamp takes the back aching work out of sheep handling for the shepherd. Easy use for dagging, drenching vaccinating and tagging.

Can be set-up for left or right hand operation. A large foot treadle allows the operator freedom of movement whilst restraining the animal for treatment. The Combi Clamp width is fully adjustable to suit different sizes of sheep.

The Combi Clamp linkage is adjustable to suit different weight of operator. Simple non-return
