

Winton WHF 145

£2,060.00

Winton Hydraulic Offset Flail Mowers Overgrown fields / Lawn quality finish / Weed control These flail mowers share the same specifications as the WFL range with the addition of the ability to offset the flail mower. This is achieved through the hydraulics of the tractor and enables movement of the mower to extend into hard to reach areas. Adjustable cutting height range of 3-8cm. Requires one double acting hydraulic spool to operate. Hydraulic offset A-frame as standard. Upgraded bearings for smoother action. Spirally arranged blades for an efficient cut.

Product Details	
Category/Type	Groundcare Machinery
Make	Winton
Model	WHF 145
Year	2023
Hours	-

Fleet Lane, Bredon, Tewkesbury, Gloucester, GL20 7EF
