

Ag Products Easyscrape 180

£POA

AG 6ft dual direction yard scraper. (0.74cu/m & 1.8M width). A-frame & 3-point linkage as standard on all models. With perfect elasticity, high tensile strength, good impact resistance and little elongation, the AG Easyscrape gives the best results. All scrapers are twin bladed, using hard wearing, high-impact strength rubber. Fully galvanised with a polyurethane blade which allows a long lasting and more efficient blade. Able to follow uneven surfaces. Easily changeable parts. No pivoting points. Cleaner yards. Reduced scraping time. Reduced spillage and splash.

Now in stock. Please contact us for more information.
