

Ambrogio 20 Elite S+

£POA

SMALL BUT MIGHTY

The Twenty is our smallest ever fully autonomous robot lawnmower, but don't confuse its small size for a less capable mower. This little machine is fitted with the latest processors, brushless motors, a powerful battery, GPS module and solid 18cm stainless steel blade.

The compact size, measuring 42cm long and weighing in at 7kg, keep the Twenty Elite S+ discreet on your lawn. This mower is inconspicuous when working, but also takes up minimal
