

Arrowquip Q-Catch 87

£POA

The NEW Q-Catch 87 Series cattle crush is stronger, faster, and quieter than any model before it. From the line-up of cattle crushes that has redefined the meaning of silence in farms across the globe, the latest Q-Catch model takes it to the next level, providing a truly silent cattle handling experience. The NEW Direct Drive yoke gate technology provides rapid response, while the 3E Yoke Gate bars draw cattle into the crush to prevent stops in the flow of cattle through the system for increased efficiency. When combined with the 87 quiet points found from front-to-back, enhanced heavy-duty frame, and modifications throughout that are designed to make cattle
