

EGO BC 3800E Brushcutter

£285.00

The BC3800E gives you more options with a single tool. The 38cm line trimmer head will help to tidy up spaces your mower may not be able to reach, such as close to tree trunks, flower beds, bushes and fences, while the 30cm brush cutter will cut through dense vegetation. This tool can also be used with our rotocut, which is suitable for cutting on hard surfaces such as pavement without damage.

There's no substitute for comfort, so also provided with this set is our AP1500D double-shoulder
