

EGO HT 5100E Hedgetrimmer

£229.00

The EGO Power+ 51cm cordless hedge trimmer is ideal for those who need to cut narrow/long hedges with thicker stem widths. A 33mm blade gap chews up thick stems and branches, working in tandem with the dual action, double-sided cutting blade allowing a back-and-forth cut if necessary.

With a rotating handle, this tool allows even more flexibility when it comes to cutting. It will rotate 45° and 90° left and right, meaning you can adjust the tool to suit your preferred cutting stance.
