

EGO ST1511E Strimmer Kit

£349.00

Fitted with our revolutionary Powerload™ technology, the ST1511E 38cm line trimmer kit certainly solves one of the biggest frustrations – line replacement. The automatic line replacement takes only 10 seconds, meaning you can get back to your work quicker, and with less stress.

The clockwise trimmer has variable speed adjustment to extend run time and offer excess power for your specific grass condition. The brushless motor is highly efficient and powerful, yet reduces vibration throughout the tool, making it safer to work with over long periods.
