

EGO ZT4201E-L Electric Zero Turn Mower

£POA

EGO's Z6 Zero-turn Ride-on Mower is the world's first platform-compatible ZTR, powered by any combination of EGO 56V ARC lithium batteries. Included in this kit is the industries fastest multi-port charger which can charge up to 6 batteries at the same time. Delivering the equivalent power of a 22 horsepower petrol engine, with none of the emissions, the Z6 covers up to 2.5 acres on a single charge with six 12Ah batteries. You can tailor the combination of batteries exactly to match the size of your lawn, and to how you prefer to cut your grass – unlike any other battery-powered ZTR on the market.

Product Details

Category/Type	Garden Machinery
Make	EGO
Model	ZT4201E-L Electric Zero Turn Mower
Year	New
Hours	-

Fleet Lane, Bredon, Tewkesbury, Gloucester, GL20 7EF
