

Fleming TOP 9 In Line Topper

£POA

The Fleming Agri 9ft in-line grass topper has a durable and steady design. It is the perfect machine for use on agricultural land as well as for use on playing fields and other sports grounds. It has a compact design for increased stability on steep terrain. As a result it is ideal for working in areas with limited access.

Fleming offer both a standard and heavy duty model. The heavy duty model is also available in a front mounted model.
