

Keyflow Key-Plus (pre-digested stabilised rice bran)

£POA

The perfect additive to your feed room for horses and ponies requiring increased condition, topline or an extra source of 'cool' calories – especially over winter.

When conditioning a horse, we recommend you feed a safe, highly-digestible form of energy that doesn't affect temperament. Key-Plus is made from pure Stabilised Rice Bran (SRB) which is high in oil and contains powerful antioxidants. SRB is known for its muscle building qualities. It also contains vitamin E, selenium and has a balanced calcium to phosphorous ratio.
