

Kidd 450 - Bale Shredder

£POA

Kidd 450 Bale Shredders easily handles straw, haylage, clamp grass and maize silage. It's compact but with surprising large capacity for 2 round bales upto 6ft diameter. Material can be directed to exactly where it is needed with less waste. Round or square bales are distributed with an even flow of material. Loose silage is evenly distributed. Wide body for greater capacity. Will take the largest bales produced, round or square. Feeding silage over a barrier. Beater fan combination evenly feeds silage. 450 TC will shred straw unchopped for animal bedding or at the touch of switch chop straw short for inclusion into a feed ration or for cubical bedding. 450TC
