

Marksway Mollichaff Herbal

£8.53

Mollichaff Herbal is a high quality chaff made from oat straw which has been enriched with a variety of herbs that are found in the horses natural environment. Only a light dressing of molasses is needed in this mix, this is due to the herbs giving the oat straw a more appetising flavour & aroma that horses enjoy. A balanced mix of garlic, mint, rosemary & golden rod provide benefits to the digestive system, respiratory system, taste & overall nutritional quality of the chaff.
