

Merlo Cingo 700TD

£POA

The all new Cingo M700TD with hi-tip bucket increases the versatility of the Cingo tracked carrier.

With a 500kg maximum load, 1.4m tip height and 34cm forward tip, the M700TD with optional self-loading bucket attachment will easily clear the height of a standard skip. The Cingo is perfect for small machine material handling across all terrains without compromising on power, size or maneuverability. Please contact us for price and availability.
