

Merlo Cingo Handler 400

£POA

HANDLER 400

This exclusive Handler attachment, which is completely interchangeable with every other accessory designed for the multifunction system, transforms your unit into a real compact telehandler.

The attachment is designed to be mounted on the CINGO M12.3EVO model.

While the standard Handler 400 comes with a fork attachment, a wide range of other attachments (shovels, fork with grab, log grapple, hedge trimmer, etc.) for excavating, lifting, carrying and
