

Merlo Cingo M12.3-Evo Handler

£18,800.00

The multifunctional M12.3-EVO Handler 400 is a genuine compact telescopic handler: the exclusive handler attachment consists of a telescopic boom, sliding on adjustable anti-friction pads. With a maximum lifting capacity of 400kg for 3.4m of maximum height, the handler is equipped as standard with the anti-tilt system that provides maximum operator safety. The front carriage has manual attachment locking, meanwhile the boom controls are handled from an ergonomic electromechanical joystick. The machine is fitted with standard front hydraulic stabilisers, to ensure best performance and safety during the loading/unloading operations. The
