

Merlo MF34.7CS

£POA

Merlo is the first company on the market to have transformed the concept of a tractor with a telescopic boom into reality. The Multifarmer range consists of 2 models. The smaller model, the MF34.7, has a lift capacity of 3.4 tonnes with a lift height of 7 metres. This model is equipped with a 136hp engine and are managed by the EPD hydrostatic system which enables reduction in fuel consumption, allowing all handler and tractor operations to be carried out efficiently. The Multifarmer has been designed to carry out both handler and conventional tractor operations – fitted with a 2 speed P.T.O, 3 point linkage, rear spool valves and a pick up hitch. The auto
