£POA

Specially designed for AGRICULTURAL MACHINERY TRACKING. When you consider that Â£70 million worth of plant and agricultural equipment is stolen every year with 95% never being recovered itâ€™s clear that agricultural machinery tracking is vitally important to protect your assets. TRACKER has specially designed products for agricultural machinery whether it is powered or not, and fitting our tracking devices can reduce your insurance premiums by up to 25%! Farm equipment tracking allows you to receive alerts when vehicles or machinery are removed from your premises and significantly increases the chance of swift recovery in the
