

Vicon 764 6 Rotor Tedder

£9,000.00

The Vicon Fanex 764 6-rotor tedder is designed to perform perfectly in all crop conditions, with a minimum of non-productive maintenance required and with diminished transport dimensions. Featuring a heavy duty, fully closed headstock this machine will fit perfectly into the operation of professional farmers looking for a strong, effective and versatile tedder. All tedders are fitted with a high performance driveline combination. The complete driveline is maintenance-free, and offers highly reliable transfer of power, combined with extremely compact transport dimensions thanks to a winning combination of u-joints and finger clutch joints. **ADVANTAGES:** Maintenance-free
