

Vicon Extra 632T

£POA

Centre Suspended Mower Conditioners Vicon EXTRA 624T, 628T/R and 632T Farmer are all fitted with the EXTRA cutterbar with slim design for improved cutting performance, and with a choice of either SemiSwing steel tine, nylon tine or roller conditioning. The mowing units are suspended in the centre of gravity via a large suspension spring. This design provides an even weight distribution across the entire mowing width, as well as a constant, faster and more precise adaptation to ground contours The Advantages: Available with hydraulic spring adjustment. Centre mounted spring suspension 2.42, 2.84 and 3.18m working width SemiSwing steel tine.
