

Vicon RotaFlow RO-M Pro

£POA

Master of the Medium Segment.

The RO-M is the perfect spreader for the medium segment of farms! Each spreading disc has 8 vanes and their length determines the working width of the machine. These 8 vanes contribute to the highly accurate spread pattern across the complete working widths reaching from 10 up to 28 metres. With the easy to assemble aluminium extension rims the basic hopper capacity of 1100 litres can be increased up to 1550 or 2000 litres.

Product Details	
Category/Type	Fertiliser Spreaders
Make	Vicon
Model	RotaFlow RO-M Pro
Year	-
Hours	NEW
